National Taiwan Normal University Course Code Notation

【Courses for the General Degree Program】

A course code is consisted of three letters and four digits.

- The first two letters represent the department/graduate institute offering the course (e.g., *ED* refers to the Department of Education; *PC* represents the Department of Educational Psychology and Counseling, *E0* refers to the College of Education, *L0* represent the College of Liberal Arts).
- The third letter denotes the level of study (e.g., *U*: undergraduate courses; *M*: master's courses; *D*: doctoral courses; *C*: courses offered to students from different degree programs).
- Finally, the four digits stand for the specific serial number of the course.

【Courses for the In-Service Master's Degree Program】

A course code is consisted of three letters and four digits.

- The first two letters represent the department/graduate institute offering the course (e.g., *CH* refers to the Department of Chinese).
- The third letter (i.e., *P*) indicates that the course is offered by the in-service master's degree program.
- The first digit denotes the information regarding the target class participants (i.e., 5: the course is offered to teachers; 7: the course is offered to the students from the executive master's degree program).
- The remaining three digits represent the specific serial number of the course.
