About Us

The College of Sports and Recreation was officially founded in August of 2001. It has 2 departments, 1 graduate institute, and 1 EMBA. The programs of departments are as follows: the Department of Physical Education and Sport Sciences offers undergraduate, master's, and doctoral programs, as well as continuing education master's program; the Department of Athletic Performance provides undergraduate and master's programs; the Graduate Institute of Sport, Leisure and Hospitality Management offers master's program, continuing education master's program, and doctoral program; and LOHAS EMBA (Lifestyle of Health and Sustainability Executive Master of Business Administration) provides continuing education master's program.

Characteristic

The primary aim of the College of Sports and Recreation is to become a leading educational institution in Taiwan, as well as to gain a reputation within the international academic community. From 2022 to 2024, the College is ranked the 51-100th in Sports-Related of the QS World University Rankings by subject and the top 1 in Taiwan. Integrating technology with theory and practice and strengthening international and local characteristics, the College of Sports and Recreation combines technology with the humanities to serve as the core of its training for nationally ranked athletes, sports science experts, academic specialists, experienced coaches, and sports management and hospitality elites.

Vision

1. In concert with national policy, the College focuses on the promotion of physical education, exercise, and leisure programs.
2. The College emphasizes the importance of health in response to a demand for improving the public's understanding and the execution of physical fitness.
3. Following the policy of NTNU, the College reinforces the cultivation of talents in physical education, exercise, leisure and hospitality management.
4. In order to increase job diversity, the College provides further study opportunities for graduate students, institution and industry staff, and on-the-job students, etc.
5. The College enhances the professional understanding of the fields of sport, leisure, and management by concentrating on academic collaboration and research with domestic and international universities.
