Introduction

The focus of our department is to explore quality of all aspects of life from a life course perspective. Professional domains include Family Life Education and Child Development & Education. In an effort to meet urgent societal development needs, our department offers three career tracks for each professional domain: teaching, research, promotion & management.

Instructional Objectives

- 1.To conduct cutting-edge research in relevant professional areas.
- 2.To promote theory, practice and policy with international and local characteristics.
- 3.To cultivate teachers in areas related to home economics, family and early childhood education.
- 4.To foster talents with versatile skills in areas of family and early childhood education.
- 5.To provide continuing education to University graduates and working people.

Degree Requirements

The Undergraduate Program requires the completion of a minimum of 128 credits to graduate. The Master's Degree Program requires the completion of a minimum of 30 credits and a thesis to graduate. The Doctoral Program requires the completion of a minimum of 30 credits and a thesis to graduate.
